This meeting

| Item | Issue | Action |
|------|---|--------|
| 1. | Welcome & Acknowledgment of Country Sam Davis, Acting Manager Jervis Bay Marine Park (AMJBMP) welcomed members and alternate members to the meeting. Robert Chewyng gave an Acknowledgement of Country. | |
| 2. | Actions from meeting one The AMJBMP gave an update on completed actions. All three actions have been completed. | |
| 3. | Adoption of minutes <ul style="list-style-type: none">Amanda Findley moved the minutes of Meeting 1 be adopted as a true and accurate record. Sue Feary seconded that the minutes of Meeting 1 be adopted as a true and accurate record. | |

| | | |
|----|--|--|
| 4. | <p>Recommendation of Chair</p> <p>Pending - 8 members yet to respond.</p> | |
| 5. | <p>Summary of feedback on marine park values task</p> <p>A/Senior Manager Marine Planning (SMMP) thanked the committee for reviewing and providing comment on the values document.</p> <ul style="list-style-type: none"> • This task is consistent with the first step in the management planning process outlined in section 48 of the Act – <i>'state the environmental, economic and social values to be conserved by the marine park'</i>. • The document does not attempt to suggest that certain values have been created by the marine park or are unique to the marine park. Rather, it attempts to identify values within the marine park area so that opportunities to conserve and enhance those values can be explored. • The values are not listed in any particular order. • Comments are anonymous and have been made by a variety of committee members across many areas. • SMMP noted that some committee comments had moved past discussing values to exploring possible threats and management actions. These comments are relevant to the next steps in the management planning process outlined in section 48. <p>Discussion: The PLMO discussed the importance of events to the economic</p> | |

| | and social values of marine parks and regional communities. | |
| 6. | <p>Opportunity for members to discuss values</p> <p>The committee discussed values within the Jervis Bay Marine Park area and provided additional feedback on the values document.</p> <ul style="list-style-type: none"> • Written and verbal feedback from the committee will be summarised and circulated to the committee for review and any further comment. Comments regarding possible threats and management actions will be noted separately below the values and will also be incorporated into the next stage of the process. • The AMJBMP invited members to speak to the values of their respective area(s) of expertise. Issues and comments raised included: <ul style="list-style-type: none"> ○ Need to recognise and incorporate economic and social elements into the cultural values. ○ Value of tourism in the Shoalhaven has reached 1 billion dollars annually with part of that coming from the 'Unspoilt' campaign. ○ Regarding education values, Vincentia High also uses the marine park for Earth & Environmental Science, in addition to private schools. ○ Importance of nature-based tourism to the region and the importance of integrating land and water management ○ Recognition that the environmental attributes of Jervis | <p>Action:</p> <p>20.02.01 – SMMP to circulate the values document with committee feedback for further consideration and any final comment.</p> |

| | | |
|----|---|--|
| | <p>Bay underpin the social and economic values of the marine park</p> <ul style="list-style-type: none"> ○ Importance of complementary management between terrestrial parks and the marine park ○ Recognition that the environment needs to be the main focus it is the nature-based activities which hold the greatest value for visitors ○ Citizen science and community projects add social value <p>Movements:</p> <p>At 16:40 Matthew Rountree had left the meeting.</p> | |
| 7. | <p>Next steps</p> <p>SMMP outlined the next steps in the marine park planning process from s48 of the Act:</p> <ul style="list-style-type: none"> • identify threats to those values • state the management objectives of the marine park in relation to those values and threats, • specify actions to achieve those management objectives, based on a consideration of risks • Similar to the values task, a discussion paper that outlines the threats, management objectives and actions will be circulated to the committee out of session for consideration. The committee will have the opportunity to discuss this paper further at the June meeting. • SMMP screen shared and talked through this document and tasks. This document includes initial information as a starting point for | <p>Action:</p> <p>20.02.02 – SMMP to circulate the discussion paper on threats, management objectives and action for committee review and comment.</p> |

| | | |
|----|--|--|
| | <p>discussion only. DPI is seeking to stimulate discussion and enhance the information with the committee's advice and expertise.</p> <ul style="list-style-type: none"> • It is important to note that threats should not be seen as negative – many activities listed as threats are also listed as values. By discussing specific impacts associated with aspects of certain activities, we can identify opportunities to conserve and enhance values. • For committee members who are more comfortable considering and providing feedback verbally, the MMP will be available to arrange a one-on-one session to talk through and capture feedback. The discussion paper will be circulated in the coming days with instructions. <p>Discussion: The Committee discussed how this process meshes with Indigenous cultural values, threats to these values and the ability of marine parks to enhance opportunities for Indigenous participation and engagement.</p> | |
| 8. | <p>Marine Estate Management Strategy – quarterly reporting and implementation updates</p> <p>Sarah Fairfull Director, Aquatic Environment (DAE) provided the following updates on the Marine Estate Management Strategy quarterly reporting and implementation updates:</p> <ul style="list-style-type: none"> • The NSW marine estate website marine.nsw.gov.au houses all reports and implementation updates. • The second Quarterly Report contains updates on all the Marine | |

| | | |
|----|--|--|
| | <p>Estate Management Strategy Initiatives for the period Oct-Dec 2019 and a third quarterly report is in the process of being finalised for release.</p> <ul style="list-style-type: none"> • The Committee members can register for updates via the 'Stay Informed' area of the website to receive all the updates and reports via email. • The 'Advisory Bodies' tab houses all the information pertaining to the Marine Park Advisory Committees. • The 'Marine Estate Programs' tab houses information on all of the marine estate reform programs including the marine park management planning process. | |
| 9. | <p>Other business & next meeting date</p> <p>The AMJBMP called for any other business to be raised and the committee discussed a suitable time for the next meeting.</p> <ul style="list-style-type: none"> • The DAE asked if members would consent to share contact details with the same representative areas for each of the other Marine Park Advisory Committee members. Committee discussed options to nominate individually and it was decided that members could opt out should they choose to do so. • The Committee discussed the date and time of the next meeting and agreed 16:00-18:00 on June 10 2020. <p>The meeting ended at 17:36.</p> | <p>Action:</p> <p>20.02.03 – Committee members to contact MJBMP to opt out of contact sharing.</p> |
